The German Shepherd Dog Club of Minneapolis and St. Paul offers puppy, novice, and advanced conformation classes for German Shepherd Dogs.

The puppy conformation class is for puppies 3 months and up. This class aims to make the conformation ring fun for puppies. The instructor will help you train your puppy to gait around the ring, learn to stack and accept the judges examination. We encourage the puppies to be confident and have fun! This will allow your puppy to know what is expected of them when shown in the conformation ring.

The novice class welcomes those GSD owners with little or no experience in the conformation ring. The instructor will teach you how to stack and gait your dog. They will also explain the loose lead temperament test, coming and going, baiting and general ring procedure. This is great for someone new to the conformation ring.

The advanced conformation class is for dogs with basic breed ring control and handlers with a working knowledge of stacking, gaing, baiting and ring procedure. In this class handlers are fine tuning their dogs and can ask the instructor to help work on specific problems they need help with. Most handlers in the advanced class have exhibited German Shepherd Dogs in a dog show.

Please bring your German Shepherd Dog, a show collar, a lead (4-6 foot, leather preferred), bait (treats to reward your dog), and wear comfortable clothing and shoes (no heels!), as you will be running with your dog. Please keep your dog on leash at all times.

Come join our classes with your German Shepherd Dog.
